ISSUE 4

NEW LEGISLATIVE REGULATIONS

In the application of the Delegated Regulation in Romania, *the Ministry of Health Order no 1.437 of Nov 22, 2018*, was issued as the first important law provision.

The National Competent Authorities have played a crucial role in the successful project implementation by being open to collaboration and by continuously offering their support in matters falling under their responsibility.

The latest document that has been passed by the Romanian Government in the afore-mentioned context is the *Ordinance no. 88 of Oct 20, 2023*, for amending and supplementing Law no. 95/2006 on the health reform.

The novelty brought about by this document is represented by the *new sanctions that have been implemented for non-compliance with the legislation related to the serialisation of medicines*.

GUIDE FOR WHOLESALERS WITH THE EXISTING TRANSACTIONS WITHIN THE NMVS

After the positive feedback regarding the Pharmacies' Guide, it has been decided to create a similar Guideline for Wholesalers.

A big thank you goes to the Operational Team for maintaining an open dialogue with the End-Users and for their effort in generating both Guidelines.

The Guide can be found on the OSMR website, on the [Wholesalers](#) section.

Actions initiated by wholesalers on medicine packs

-  **VERIFICATION**
- 
 **DECOMMISSIONING**
-  **DESTROY**
-  **BLOCK**
-  **SAMPLE**
-  **FREE SAMPLE**
-  **EXPORT**
